Professional Practice Gaps:

1. Lack of awareness of effectiveness of bilateral cochlear implantation
2. Lack of familiarity of office based procedures
3. Lack of knowledge of skull base meningiomas
4. Inconsistencies in treatment for diagnosis of sensorineural hearing loss

Learning Objectives:

1. Recognize the indications and expected results from bilateral cochlear implantation
2. Apply techniques of office based otology and neurotology
3. Explain the behavior of meningiomas
4. Describe treatable causes of sensorineural hearing loss

Panels will include Audience Response Technology

Purpose:

The purpose of this CME activity is to provide up-to-date information to physicians in order to increase knowledge and competence, enhance practice patterns and improve patient outcomes. The **target audiences** are neurotologists, otologists, and otolaryngologists with specific interests in neurotologic and otologic issues.

Accreditation Statement: The American Neurotology Society (ANS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Statement: The American Neurotology Society designates this educational activity for a maximum of **4 hours** *AMA PRA Category 1 Credit(s)*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Certificates of Attendance will be issued at the close of the meeting upon completion of the questionnaire required for the certifying organization.

Position Statement: American Neurotology Society—Any presentations, conversations, exhibits, or other meeting communications, including descriptions of the use of drugs or devices, does not imply or constitute endorsement of any company, product, application, or use by the American Neurotology Society.

Full Disclosure Statement

In accordance with the ACCME Essential Areas and Policies, it is the policy of the American Neurotology Society to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. All authors, panelists, guest lecturers, CME and Program committee members, moderators, administrative staff and any other contributing individuals who may be in a position to control content of a CME activity are responsible for disclosing any potential conflict of interest or any significant financial or other relationships with the manufacturer(s) of any commercial product(s) or provider(s) of any commercial service(s) discussed in an educational presentation. The purpose of this form is to identify and resolve all potential conflicts of interests that arise from financial relationships with any commercial or proprietary entity that produces healthcare-related products and/or services relevant to the content you are planning, developing, or presenting for this activity. This includes any financial relationships within the last twelve months, as well as known financial relationships of your spouse or partner.

To further ensure there is no relevant conflict of interest, the presentations were peer-reviewed by members of the ANS CME Committee to identify, address, and resolve any potential conflict of interest prior to the CME activity taking place. In the event a relevant conflict of interest is noted, one or more of the following actions will be initiated.

1. The presenter will be contacted and asked for clarification or additional information.
2. The presenter will refrain from making recommendations regarding products or services and limit presentation to current evidence/science/research.
3. An alternate speaker will be chosen in which no conflict of interest is disclosed.

Failure to comply with the recommendations of the American Neurotology Society will result in disqualification from the CME activity.

The intent of this policy is not to discourage speakers who have relationships with commercial entities from presenting, but to identify these relationships to the listeners so that they may form their own judgments. Failure to disclose this information on submission forms, or failure to return this disclosure form will result in exclusion from this activity and from future CME activities for up to two years. The American Neurotology Society is committed to the non-promotional advancement of knowledge and science and to a free exchange of medical education in otology and neurotology.
