

**AMERICAN NEUROTOLOGY SOCIETY
NEUROTOLOGY FELLOWS AWARD**

43rd Annual Spring Meeting

J. W. Marriott Grand Lakes

Orlando, Florida

May 2-3, 2008

Deadline for submission: October 15, 2007

The Neurotology Fellows Award was established by the American Neurotology Society in 1996 to reward scientific excellence. The award has been generously endowed through royalties received for the textbook Neurotology, Mosby Publishers, D. Brackmann and R. Jackler, editors. One or more awards of \$500 each is intended to subsidize travel expenses incurred while giving a scientific presentation at the Annual Spring Meeting of the American Neurotology Society.

Applicants must be full-time participants in a post-residency Neurotology Fellowship in the United States or Canada. In addition, the Fellow must be both podium presenter and first author of the paper submitted for publication. The material presented need not have been performed during the Fellowship year; it may derive from earlier work performed during the residency or extracurricular research experience.

A detailed abstract describing the proposed presentation is the minimum requirement. Additional material describing the work-in-progress in greater detail may also be submitted for consideration. While a mature manuscript is helpful at the time of application, it is not required. Award recipients are expected to submit a paper suitable for publication in *Otology & Neurotology* one month prior to the meeting.

Applicants should submit electronically a cover letter, a supporting letter from the Fellowship director to verify qualifications, and electronic submission of the abstract by October 15, 2007 to:

Shirley Gossard
Administrator, American Neurotology Society
