

THE AMERICAN NEUROTOLOGY SOCIETY (ANS)
&
AMERICAN ACADEMY OF OTOLARYNGOLOGY-
HEAD AND NECK SURGERY FOUNDATION (AAO-HNSF)
ANS/AAO-HNSF HERBERT SILVERSTEIN
OTOLOGY/NEUROTOLOGY RESEARCH AWARD

FUNDING OPPORTUNITY ANNOUNCEMENT

A. PURPOSE

The purpose of this award, which is jointly sponsored by the AAO-HNS Foundation and the American Neurotology Society, is to support a clinical or translational research project focused on diseases, disorders, or conditions of the peripheral or central auditory and/or vestibular system among new full-time academic surgeons. The award is intended as a preliminary step in clinical investigator career development and is expected to facilitate the recipient's preparation of a more comprehensive individualized research plan suitable for submission to the National Institutes of Health or comparable funding agency.

B. ELIGIBILITY

Applicants must be physicians in the United States or Canada with demonstrated potential for excellence in research and teaching and serious commitment to an academic research career in otology or neurotology. Priority will be given to fellows or junior faculty, who have completed residencies or fellowships within four years of the application receipt date, although otolaryngology-head and neck surgery residents are eligible. All candidates must be sponsored by the Chair of his/her Division or Department and by an official representative of the institution which would administer the Award and in whose name the application is formally submitted. Former ANS, AOS, or Foundation research grant recipients are eligible to compete for the Silverstein Award. Individuals who have already competed successfully for independent research grant support from a private or Federal funding agency are ineligible for this Award.

C. CONDITIONS

Research supported by this award should be specifically directed toward the pathophysiology, diagnosis, prevention, or treatment of auditory and/or vestibular disease, and must be either clinical/translational or basic with a clear and demonstrable clinical relevance. While not specifically required, proposals which are focused on otosclerosis or Meniere's disease, and/or which aim to introduce new knowledge and methodology from other disciplines to research in otology or neurotology, or which demonstrate collaborative effort with members of other related disciplines are encouraged. Projects must be designed so as to yield useful information within the period of award, but priority will be given to projects that are also innovative with promise to develop into new long-range or expanded research programs capable of attracting funding from other sources. Applications **must** be accompanied by a letter of support from the applicant's Department Chair verifying that the applicant will be permitted to devote an appropriate amount of time to the conduct and timely completion of the proposed research project. Applicants must obtain letters of support/understanding from all key personnel on the project.

D. TERMS

1. **Amount:** \$25,000 maximum (\$12,500 per year)
2. **Period:** 24 months, non-renewable
3. **Budget:** A detailed budget and budget justification constitute part of the application and will be evaluated as part of the review process. Allowable expenses include consultant fees (e.g. statistician); salary support for research assistants or other technical personnel; computer software or hardware; purchase and maintenance of experimental animals; patient incentive costs; and expenses related to publication of results, exclusive of reprint costs. Funding may not be used to support the applicant's normal salary during the period of the award. Patient care costs that can be considered within the ordinary and accepted standard of care and which are eligible for third-party payment may not be charged to the grant. Equipment and supplies purchased with this Award become the property of the recipient institution. If university policy stipulates that a portion of this very modest award must

go toward institutional indirect costs, no more than ten percent (10%) of the total costs may be applied for indirect costs.

4. **Review:** Applications will be reviewed by members and ad hoc reviewers of the AAO-HNS Foundation CORE Study Section Subcommittee. Recommendations for funding must be approved by the AAO-HNS Foundation Board of Directors.
5. **Notification:** Letters of notification will be sent in June of the award year. Please do not call the AAO-HNSF office prior to that time to inquire about results.
6. **Start Date:** The recipient of the Herbert Silverstein Otolaryngology/Neurotology Research Award will be announced publicly at the closest AAO-HNS Foundation Annual Meeting immediately following the award. The award may be activated as early as July 1 of the year of award, but no later than January 1 of the following year.

E. FORMAT

Applications are in a similar format to the National Institutes of Health. All applications must be completed and submitted online through Proposal Central at <https://proposalcentral.altum.com>. The final page of this document includes a general outline of what will be required.

F. SIGNATURES

Foundation grants are legally awarded to the institution with which the Principal Investigator is affiliated, not to the investigator or his/her division or department. For this reason, it is very important that applicants comply with their home institutions' policies with regard to pre-submission processing of grant applications. This can take time, so it is wise to plan ahead, allowing adequate time for processing and approvals. For example, the original copy of an application to the Foundation must be signed by the person legally authorized to represent the institution in any contractual relationship that might result. This is typically someone in the administration whom the applicant does not know personally. Applicants are advised to consult their institutions' offices of research administration or sponsored projects for information on processing requirements for an application prior to its submission.

G. APPROVALS

If the proposed research involved human subjects or vertebrate animals at any time, the project must be reviewed and approved by the appropriate institutional review board (IRB) or animal use and care committee (IACUC). This approval shall be obtained prior to submission and submitted with the application. If such approval is unavoidably delayed, enter "pending" instead of the data and send a follow-up certification of approval signed by an official of the application institution within 30 days after the January 15 receipt date. Grant applications which are not supported by evidence of the appropriate IRB or IACUC will not be reviewed or considered further in that grant cycle. Any changes in the proposed work required by an IRB or IACUC to secure approval must be submitted to the Foundation with the follow-up certification, prior to review or after the work is in progress.

H. LETTER OF INTENT

All applicants must submit a Letter of Intent online no later than midnight Eastern Standard Time December 15. The letter of intent includes the title of the project, the principal investigator, and an abstract of the work. This will facilitate planning review requirements. See the proposalCENTRAL website (<https://proposalcentral.altum.com>) to begin the letter of intent process.

OTOLOGY/NEUROTOLOGY RESEARCH AWARD

FUNDING OPPORTUNITY ANNOUNCEMENT

I. RECEIPT DATE

Allow yourself enough time to have the appropriate individuals review your application. Once your application is complete, print your cover page and have all of the necessary individuals sign. Keep in mind that it may take a few days to obtain all of the necessary signatures. The CORE grants program is paperless, so no hard copies of the signature page are to be mailed. Once all signatures have been obtained, you should scan the document and upload the .pdf to the system and retain the original for your files if needed. Once the signature page has been uploaded, run the checks within the system and click 'SUBMIT.' You will receive a confirmation email indicating that your proposal has officially been submitted.

ALL materials must be submitted online by midnight, Eastern Standard Time, January 15, 2010.

J. FOLLOW-UP

In carrying out its stewardship of research programs, the ANS or AAO-HNSF may request information essential to an assessment of the effectiveness of this program. Accordingly, the recipient is hereby notified that s/he may be contacted after the completion of the award for periodic updates on various aspects of employment history, publications, support from research grants or contracts, honors and awards, professional activities, and other information helpful in evaluating the impact of the program.

K. REPORTING REQUIREMENTS

The grantee must submit an interim progress report to the Foundation at the end of the first year of the award. The Grantee is also required to submit a final progress report thirty (30) days after the close of the project period, and a financial status report within ninety (90) days after the close of the grant period. While no verbal presentations or publications are required to result from this Award, any which do shall acknowledge the contribution of this source of funding. Recipients of the Award may be invited to present the results of their work at meetings of the American Neurotology Society and/or American Academy of Otolaryngology-Head and Neck Surgery Foundation. The Award recipient is encouraged to use the results of the research program as pilot data for the development of an application for a Clinical Investigator Award from National Institutes of Health.

GRANT CHECK LIST

Visit <https://proposalcentral.altum.com>

TIP: When completing the LOI and Application, be sure to save each page before selecting 'Next.'

I. CREATE/UPDATE PROFESSIONAL PROFILE

- Contact Information
- Degrees
- Research Interests
- Personal Data for Application
- Biosketch
- Enable others to access your profile
- Account information (link to existing or create Institutional Profile)

II. CREATE LETTER OF INTENT (LOI)

- 1) Project Title (*Do not exceed 80 characters*)
- 2) Grant access to key personnel from your institution
- 3) Applicant/PI (*Pre-populated from your Professional Profile*)
- 4) Institution & Contacts (*Pre-populated from your Professional Profile*)
- 5) Abstract (*2,000 characters max, including spaces. Text only. No special characters or formatting*)
- 6) Select key words to describe your project (*this assist us with selecting appropriate reviewers*)
- 7) Validate that everything has been completed for the LOI
- 8) Submit. Receive confirmation email entitled 'LOI to American Academy of Otolaryngology has been Submitted'

SUBMIT LOI BY DECEMBER 15, 2010

III. COMPLETE APPLICATION

1. Receive email entitled 'LOI to American Academy of Otolaryngology has been Approved.' This is your signal that you can begin the on-line application.
2. Title Page *Some information pre-populated from the LOI*
 - a. Is this a resubmitted application from a previous year? If yes, explain what has been changed.
 - b. Other sources of funding? If yes, identify sources.
 - c. Total amount being requested for the entire project?
 - d. Proposed start and stop dates
3. Download Instructions and Templates to help guide you through the application process
4. Enable other users to access the application
5. Applicant/PI *Most information pre-populated from Professional Profile*
 - a. % effort proposed for PI on this project.
6. Institution & Contacts *Some information pre-populated from Institutional profile*
 - a. Email for Signing Official
 - b. Email for Financial Officer
 - c. Email for Department Head
7. Key Personnel
8. Abstract *Already completed as part of the LOI*
9. Assurances & Certifications (use of Human Subjects, Vertebrate Animals or involvement of Recombinant DNA?)
10. Research Plan & Other Attachments
 - a. Research Plan not to exceed 10-pages
 - b. Budget & Budget Justification not to exceed 4-pages
 - c. PI Biosketch
 - d. Resources & Environment
 - e. Abstract
 - f. Department Head Letter
 - g. Other support (letters of support from all key personnel)
11. PI Private and Demographic Info *Pre-populated from Professional Profile*
12. Cover Sheet (pre-populated from grant application, all necessary institution authorities and department head must sign and the document will need to be scanned and re-uploaded to the system)
13. Run the system checks and receive no errors
14. Submit application
15. Receive confirmation email that the application has been officially submitted

SUBMIT APPLICATION BY JANUARY 15, 2010
