

**AMERICAN NEUROTOLOGY SOCIETY  
NEUROTOLOGY FELLOWS AWARD**

**57th Annual Spring Meeting**

**April 29 - May 1, 2022**

**Dallas, TX**

**Deadline for submission: October 15, 2021**

The Neurotology Fellows Award was established by the American Neurotology Society in 1996 to reward scientific excellence. The award has been generously endowed through royalties received for the textbook Neurotology, Mosby Publishers, D. Brackmann and R. Jackler, editors. One or more awards of \$500 each is intended to subsidize expenses incurred while giving an oral presentation at the Annual Spring Meeting of the American Neurotology Society.

Applicants must be full-time participants in an ACGME approved Neurotology Fellowship. In addition, the Fellow must be both podium presenter and first author of the paper submitted for publication. The material presented need not have been performed during the Fellowship year; it may derive from earlier work performed during the residency or extracurricular research experience.

A detailed abstract describing the proposed presentation is the minimum requirement. Additional material describing the work-in-progress in greater detail may also be submitted for consideration. While a mature manuscript is helpful at the time of application, it is not required. Award recipients are expected to submit a paper suitable for publication in *Otology & Neurotology* one-month prior to the meeting.

**(Abstract must be selected for ORAL presentation to be considered).**

Applicants may submit a brief cover letter by October 15 to Kristen Bordignon, at [administrator@americanneurotologysociety.com](mailto:administrator@americanneurotologysociety.com) at the time of abstract submission.
