

Neurotology Faculty Opportunity in the Upper Midwest

The Department of Otolaryngology – Head and Neck Surgery at the University of Nebraska Medical Center in Omaha, Nebraska is growing and actively seeking a Neurotologist to join our faculty.

This opportunity includes:

- Established Department with 14 physicians
- Partnership with subspecialists in laryngology, head and neck surgical oncology, facial plastic and reconstructive surgery, rhinology and base of skull surgery, pediatric otolaryngology and allergy
- New, state of the art clinical facilities with the latest technology

A strong commitment to patient care, medical student, resident, and fellow education, as well as clinical research is required. This individual will be a part of an established neurotology practice and be an integral member of the multidisciplinary team in a world renowned academic environment. In addition, the position affords excellent opportunities for programmatic builds, leadership development, and community outreach.

The successful candidate must be an MD/DO (or equivalent degree) who is board certified/eligible in Otolaryngology and has completed fellowship training in Otolaryngology/Neurotology. The Ideal candidate is an Associate level or higher but all are encouraged to apply.

As Nebraska's only public academic health sciences center, UNMC is committed to the education of a 21st century health care work force, to finding cures and treatments for devastating diseases, to providing the best care for patients, and to serve Nebraska and its communities through award-winning outreach. We offer a highly competitive benefits package and rank and salary commensurate with qualifications.

Candidates interested in working within a dynamic and stimulating setting are encouraged to apply with CV and letter of interest – <http://unmc.peopleadmin.com/postings/48194>

Individuals from diverse backgrounds are encouraged to apply.

Required Qualifications

MD/DO (or equivalent degree) who is board certified/eligible in Otolaryngology and has completed fellowship training in Otolaryngology/Neurotology.

Required Knowledge, Skills, and Abilities

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed must be representative of the knowledge, skills, minimum education, training, licensure, experience, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
